

**REMARKS**

Claims 46-67 are pending in this application.

With respect to the remaining rejection of claims 46-67 under 35 U.S.C. 101, the Examiner acknowledges that the claimed methods produce a useful, concrete, and tangible result, but that the claims are nonetheless objected to, since the steps of the methods as currently claimed might be performed in the mind of the user or by use of a pencil and paper.

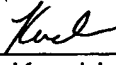

The independent claims of record have been amended to further clarify that, at the direction of the user, the steps of the claimed methods are performed by computer, i.e. not with a pencil and paper or in the mind of an individual.

The drawings have been formalized for publication. No new matter has been added.

All of the Examiner's objections have been addressed. In view of the amendments made, the Applicants respectfully submit that each of claims 46-67 is now in form for allowance, and a Notice of Allowance is respectfully requested.

Respectfully submitted,

Bereskin & Parr
